Côr™ Home Automation

The Heart of a Smarter Home
In 1902, a determined engineer answered one of mankind’s most nagging questions: How do we make hot, sticky, indoor air go away? In creating the world’s first modern air conditioner, Willis Carrier forever changed indoor life. More than a century later, the company that bears his name takes inspiration from his example.

Carrier continues to improve on our founder’s breakthroughs, introducing new technologies that make life at home not only more comfortable but safer, more efficient, and more connected. Côr™ Home Automation, the heart of a smarter home, offers a simple, yet powerful system for monitoring and controlling your home environment, wherever you are, through your smartphone or tablet.

Smart Meets Simple

Côr Home Automation gives today’s more mobile homeowner the power of knowing everything from when a door or window is open, to when a basement is flooding to when smoke or carbon monoxide are present. It provides a portal for managing comfort, monitoring children, and turning small appliances on or off. It can trigger a series of automations, or send out alerts. Perfect for a primary residence, a vacation property or both, it’s everything you need for a smarter, more secure, more connected home.

Getting close to home? Geofencing uses your smartphone to sense your approach, triggering a series of automations such as having the porch light to turn on and the front door to unlock.

Our Team of Experts

Côr Home Automation comes from a combined brain trust that includes Carrier and our vast dealer network; Interlogix, one of the most recognized names in security; and Kidde, renowned for its life safety products. Working together, this connected team of experts offers everything you need to make your home safer and more secure, as well as more comfortable and efficient.
Our Smart Start Kit provides the hardware you need to create a safer, smarter, more secure home. The kit includes the home automation hub and hub stand, three door/window sensors, one motion sensor, one water sensor, and one light module.

Professionally installed by your certified Carrier® dealer’s technician, it only takes a few minutes to connect your smartphone and download our Côr Home Automation app.

**Flexibility and Control**

Côr™ Home Automation gives you the ultimate in flexibility. You can start with the basics and build your system as needs arise. Or, go ahead and create a more comprehensive system now. Either way, you can enjoy enhanced home security and the convenience of automation with no monitoring fees. And you can always upgrade to a professional monitoring service for an even higher level of security.

**The Smart Start Kit**

Our Smart Start Kit provides the hardware you need to create a safer, smarter, more secure home. The kit includes the home automation hub and hub stand, three door/window sensors, one motion sensor, one water sensor, and one light module.

Professionally installed by your certified Carrier® dealer’s technician, it only takes a few minutes to connect your smartphone and download our Côr Home Automation app.

**Comfort at Your Command**

To take command of your comfort, select any Carrier thermostat that will integrate with the Côr Home Automation hub. When you select the Côr® thermostat as part of the equation, you’ll be rewarded with increased efficiency at an average savings of 20% on heating and cooling energy costs.*

---

*Based on a 2012 third party study comparing Carrier Côr technology to the estimated cost of a non-programmable thermostat set at 72° F at all times.
Our comprehensive catalog of system components and additions let you take your system beyond the basics with glass break sensors, door locks, cameras, dimmers and more.

**Lifestyle/Convenience**

- **Côr® Wi-Fi® Thermostat**
  - TP-WEM01
  - Communicates with your home automation hub to provide remote access to your home’s heating and cooling system.

- **Côr Smart Touchscreen Control**
  - UX-TOUCH01 (Wall Mount)
  - Add up to four Smart Touchscreen Controls to the Côr panel and access your Home Automation System from other areas of your home i.e. Upstairs Master Bedroom, Kitchen, Basement, etc.

- **Côr Home Automation Hub**
  - HA-6400-05-06-00
  - The home automation hub is the brains of the operation. Once it’s installed and set up, you can control everything from your smartphone or tablet.

- **Z-Wave® Light Dimmer Module**
  - IS-ZW-LM-1
  - Plug this into your standard wall outlet for remote control over lighting. Allows you to turn on, off, or dim.

- **Z-Wave® Light/Appliance Module**
  - IS-ZW-AM-1
  - Plug this into your standard wall outlet for remote control over turning lights/appliances on or off.

- **Z-Wave® Door Lock**
  - YRD110ZWxxx (Push Button)
  - YRD120ZWxxx (Touchscreen)
  - Lock or unlock doors key-free. Illuminated keypad makes entry a breeze.

- **Z-Wave® Wall Outlet**
  - IS-ZW-WR-1
  - Remotely turn power on or off to devices plugged into this outlet.

- **Freeze Sensor**
  - 60-742-95R
  - Detects temperatures below 41° F and sends an alarm. Reverts to normal when the temperature rises above 50° F.

*Z-Wave® is a registered trademark of Sigma Designs, Inc.*

Security

1.3 MPx Indoor Camera
RS-3130
Keep watch inside your home with this high-definition, Wi-Fi indoor camera.

1.3 MPx Outdoor Camera
T VW-3120
Keep an eye on your home with this high-definition, Wi-Fi® camera.

Motion Sensor
60-807-95R
Our motion sensor detects movement and includes special processing that prevents false alarms from small pets weighing up to 40 pounds.

Outdoor Motion Sensor
TX-2810-1-4
Our outdoor motion sensor detects movement and includes special processing that prevents false alarms from small pets weighing up to 40 pounds.

Glass Break Sensor
60-873-95
Recognizes the sound of glass breaking and sends you or your monitoring company an alert.

Door/Window Sensor
TX-E201
Wireless module detects opening and closing of doors and windows.

Large Door/Window Sensor
60-362N-10-319.5
Wireless module detects opening and closing of doors and windows.

Recessed Door Contact
TX-E221
Concealed inside the door frame for discreet sensing of when a door is opened or closed.

Garage Door Sensor
TX-E401
Provides peace of mind by letting you know when your garage door is up.

Door/Window Sensor with External Contact Input
TX-E231
Sensor allows flexibility in installation with the use of an external hardwired contact, which can be used in areas where the sensor cannot be mounted near the magnet. Great to use in triggering motion recording with the Outdoor Camera.

Other Peripheral Accessories Available (Not Shown):
- 9VAC Class II Transformer for 319.5 MHz Repeater when no backup is required
  60-515
- Repeater Kit 319.5 MHz, with Crystal Transmitter
  80-922-1
- Battery 6DC, 2.3A
  ZW-BAT21A
- Power Supply 9V, 2A
  ZW-PS9V

Control It Your Way
Download the Côr™ Home Automation app to your smartphone or tablet and your home is at your command. With the app, you have the ability to monitor activities and make adjustments to thermostat settings, lighting, locks and more. And you have the ultimate flexibility to do it from home, from the road, or virtually anywhere in the Internet-connected world.

Take It to the Next Level
Côr Home Automation offers the versatility to meet a variety of needs, from traditional security for your main home or a vacation home... or for monitoring aging parents or younger children. And, you can take it to the next level with our full line of add-ons and accessories or by creating customized automations.

Vacation Home
Keep track of when it’s occupied or when there are unwelcome intruders, monitor energy use through lighting and temperature control, or get alerts for emergencies such as flooding.

Aging Parents
Include a personal panic button to provide timely assistance to an aging parent, or use a motion sensor to check for activity.

Monitor Children
Monitor gaming system use with the ability to power it off, or place a door sensor on a safe or cabinet.
Côr™ Competency – A Simply Smarter Home

Automatic alerts on your mobile device keep you in the know when you are on the go. Take charge of your indoor comfort with a compatible Wi-Fi® thermostat.

Z-Wave® technology helps control lights, unlock doors or turn on small appliances.

Keep an eye on your home – inside and out – with remote camera viewing wherever you are.
Expert Setup and Service

Your certified Carrier® dealer is equipped to evaluate your home and create a customized system designed around your lifestyle. And when your needs extend beyond our dealers’ normal range of services, you can expect the same level of professionalism and excellence from their affiliated service providers.

Taking the First Step

The first step towards enhanced safety, security and comfort for your home involves identifying a qualified Carrier dealer near you. Our dealer locator can help you find one in your area. Visit www.corhomeautomation.com to find a dealer near you.

Backed by Warranty Protection

Côr™ Home Automation warrants this product against failure due to defects in materials or workmanship under normal use and maintenance. This three-year parts-only limited warranty starts from the date of original installation for the original purchasing owner and subsequent owners. Full warranty information is available at www.corhomeautomation.com.
