Heil® Gas Furnaces

QuietComfort® Deluxe Series
G9MAE/G9MVE/G8MVL

QuietComfort® Series
G9MXT/G9MXE/G8MTL
Built with strength
When you choose Heil® heating and cooling equipment, it means your home comfort is backed by superior engineering and quality manufacturing so you can enjoy more important things. Each unit is 100% run tested, and we design our products to give you the best in quality, energy efficiency and reliability. It’s our tradition to deliver products that exceed your expectations. You can depend on us.

Backed by exceptional warranties
The only No Hassle Replacement™ limited warranty that you’ll find in the industry backs every Heil QuietComfort® product. It means comfort with no questions. We’ll replace your unit if the heat exchanger fails within the covered period. We give you extra coverage in addition to a 10-year parts limited warranty.*

QuietComfort® gas furnaces
The QuietComfort gas furnace series offers our best comfort in the cold seasons, from the highest featured Observer® communicating system to the budget-friendly with available modulating gas valve, variable-speed fan motor, and sound-reducing insulated blower compartments.

What is a gas furnace?
Heil gas furnaces are designed for the best durability and comfort. The warmth and efficiency of natural gas combined with a quiet, efficient blower motor delivers comfort throughout the cold seasons. The gas furnace can also be combined with an indoor evaporator coil and properly matched outdoor air conditioner or heat pump to provide cooling during the warm seasons.

*To the original owner, Heil products are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is 5 years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details.
What matters in a gas furnace?
Get the most out of a heating system by choosing the gas furnace that fits your comfort needs. All of our gas furnaces include comfort enhancing and durable features to deliver lasting performance. For the maximum combination of comfort, efficiency and convenience, ask about our Observer communicating system models with Wi-Fi® capability. For more consistent temperature control, look for modulating or two-stage models. For year-round efficiency as the furnace blower runs during the cooling season, look for variable-speed and ECM blower motors. Our quietest models feature insulated blower and heater compartments. And our No Hassle Replacement limited warranty is offered on our premium products to give you peace of mind. Heil gas furnaces offer energy efficiency, increased comfort, durable performance, and quiet operation.

Efficiency ratings—what do they mean?
Annual Fuel Utilization Efficiency (AFUE)—Measures the heating efficiency of a gas furnace. The higher the AFUE, the greater the gas heating efficiency and energy savings potential.

ENERGY STAR®—A U.S. Environmental Protection Agency program to identify and promote energy-efficient products in order to reduce energy consumption.
