turn to the experts

For the Cleanest of Air, Specify With Care.

Healthcare buildings can have the toughest requirements for air handlers, including consideration for recent sustainability initiatives and ASHRAE® Std. 170 guidelines, such as antimicrobial filtration, airborne contaminant control and energy recovery. Our Carrier® Custom 39CC Air Handler is designed with these requirements in mind. At Carrier, our experts work hard to create innovative products to help your most difficult projects come together seamlessly. **We go above and beyond to deliver a single-system solution dedicated to clean air.**
