Côr® 7C and 5C Thermostat User's Guide Google® Home

SMART HOME

What is Google Home?

Big help is here with Google Home. It has the Google Assistant built in so you can ask it questions and tell it to do things. Just start with "Hey, Google" to get answers from Google, play your songs, tackle your day, control your smart home and enjoy your entertainment.

Google Home compatible devices also have integrated support for home automation, letting users control smart home devices such as the Côr® 7C and 5C thermostat with their voice. For example, you will be able to say commands for Google to do the following:

- Hey, Google! Control the temperature set point of the thermostat
- Hey, Google! Get instant feedback about the state of the thermostat temperature and mode

What Do I Need to Use Google Home with My Côr 7C and 5C Thermostat?

In order to enable voice control using Google Home to interact with the Côr 7C and 5C thermostat, you will need the following:

- Google Home speaker device
- Wireless Internet Services
- Connected Côr 7C or 5C thermostat and registered account
- Google account
- Google Home app available on the Google Play® or App Store®
