Manufacturer's Certification Statement

Natural Gas or Propane Furnace

The natural gas or propane furnace identified on the attached page(s). achieves an annual fuel utilization efficiency (AFUE) rate of not less than 95% and/or contains an advanced main air circulating fan that has an annual electricity use of no more than 2 percent of the total annual energy use of the furnace as determined in the standard Department of Energy test procedures (AMACF), and qualifies for the tax credit allowed under Section 25C of the Internal Revenue Code.

The make and model number of the natural gas or propane furnace, the installation date, and whether the furnace (1) achieves an AFUE of not less than 95% and/or (2) contains an AMACF (with the portion of the installed cost of the furnace attributable to the cost of the AMACF listed as a superscript), are set forth on the attached page(s).

A taxpayer claiming a credit for Residential Energy Property Expenditures should retain this certification statement and the receipt of purchase as part of the taxpayer's records and should consult with a tax professional to determine eligibility for and application of the credit(s).

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts presented are true, correct, and complete.

A handwritten signature in black ink, appearing to read "J. T. Holtschlag".
