**E6 Monaxis**

**Type Code**
- Name of product line: Monaxis
- Bottom shelf depth: 800 mm
- Front height: 300 mm
- Cabinet length: 2500 mm
- Temperature range: M1*
- Revision index: 1
- Dual air curtain
- Cabinet height: L = 2220 mm

*Cabinet design according to EN ISO 23953 at climate class 3

**Benefits at a glance**
- Robust, easy-to-clean design
- The latest energy-efficient technologies
- Enhanced presentation of merchandise
- Simplified maintenance

**Standard features**
- New Temperature Equalizer System (TES)
- Higher evaporating temperature
- Low front (295 mm) / Ultra-low front (220 mm)
- 25 mm shelf spacing with numbering
- Large end wall glazing
- Available in temperature performance M1 and M2

**Accessories**
- Motorized night blinds
- Energy-efficient EC fans
- LED cabinet lighting, front-shelf LED luminaries
- Various accessories for greater flexibility
- CO₂ evaporator

**Multidecks**

* length 230 available only as Monaxis 83 with front 30 cm

Multifunctional air return grille
- secures temperature stability
- and also acts as an area for pricing

Ultra-low front height available
- for larger stocking volume
- and maximum product visibility

Digital thermometer provides accurate air temperature readings
- and helps to avoid food spoilage
**E6 MonaxEco®**

**Type Code**
- Eco: Closed cabinet with Glass door
- Bottom shelf depth: 8 ~ 800 mm
- Front height: 3 ~ 300 mm
- Cabinet length: 2,500 mm
- Temperature range: M0*
- Revision index: 1
- Cabinet height: L = 2,220 mm

**E6 MonaxEco**

**Benefits at a glance**
- Robust, easy-to-clean design
- Enhanced presentation of merchandising
- Increased food protection with reduced energy costs
- Simplified maintenance

**Standard features**
- New Temperature Equalizer System (TES)
- Higher evaporating temperature
- Low front (205 mm) / Ultra-low front (220 mm)
- Insulated all-glass doors with soft closing
- Dual-speed EC fans
- 25 mm shelf spacing with numbering
- Large endwall glazing
- Available in temperature performance M0 and M2

**Accessories**
- Unobtrusive transparent doors
- Doors with anti-reflex coating
- LED cabinet lighting, front-shelf LED luminaires
- CO₂ evaporator

New refrigerated multideck for leading discounters

Dedicated LED light distribution with higher luminous output ensures optimal illumination of goods

Ultra-low front height for larger stocking volume and maximum product visibility

Multifunctional air return grille secures temperature stability and also acts as an area for pricing
Energy efficient roll-in cabinets

Benefits at a glance
- Robust, easy-to-clean design
- Superior productivity
- Increased energy efficiency
- Simplified maintenance

Standard features
- New Temperature Equalizer System (TES)
- Low front, liftable for easy loading
- Advanced air management with dual air curtain
- Higher evaporating temperature
- Energy-efficient EC fans
- 25 mm shelf spacing with numbering
- Transparent fan cover
- Available in temperature performance M2

Accessories
- Motorized night blinds
- LED cabinet lighting, front-shelf LED luminaires
- Variable internal fittings
- CO₂ evaporator

The lifttable front mechanism enables easy stocking of heavy staked goods – either when on Euro pallets or in trolleys.

The Temperature Equalizer System (TES) reduces energy costs over the long term. In synergy with the dual air curtain, the temperature distribution in the cabinet is harmonized and products on the bottom shelf are chilled even more efficiently.

E6 Methos

New refrigerated multideck for supermarkets and small store formats

Benefits at a glance

- Modern lean design
- High footprint productivity
- Increased energy efficiency

Standard features

- New Temperature Equalizer System (TES)
- Cabinet with tank evaporator
- Low front
- Optimized air management
- Higher evaporating temperature
- Large endwall glazing
- 26 mm shelf spacing with numbering
- Available in temperature performance M1 and M2

Accessories

- Motorized night blinds
- LED cabinet lighting, front-shelf LED luminaries
- Multi-functional air return grill
- Flexible display shelving
- Reinforced bumper
- Energy-efficient EC fans
- CO2 evaporator

Front shelf LED light illuminates the goods with impressive results.

Optional price holder also secures free cabinet airflow. The color customization of the trim panel adds a unique detail to the cabinet.

Optional external bumper provides increased protection of the cabinet.

E6 Mendos®

Multidecks

New refrigerated multideck for supermarkets and small store formats

Benefits at a glance
- Pure, unobtrusive design
- High footprint productivity
- Increased energy efficiency

Standard features
- Cabinet with tank evaporator
- Low front
- Optimized air management
- Higher evaporating temperature
- Energy-efficient EC fans (EP version)
- Single air curtain
- 25 mm shelf spacing
- Available in temperature performance M1 and M2

Product stoppers protect air flow and improve presentation.

Front height extensions create cabinet depth.

Backwall mirrors greatly enhance produce visibility.

Accessories
- LED cabinet lighting, front-shelf LED luminaires
- CO2 evaporator

E6 Mirado® & E6 Morea®

Semi-vertical cabinets for attractive merchandising

Benefits at a glance
- Eye-catching presentation of merchandise
- Big storage capacity and large display opening
- Low energy consumption

Standard features
- Semi-vertical cabinet with tank/back evaporator *
- Wide-open merchandising display with stepped shelves
- Ergonomic height
- LED cabinet lighting
- 25 mm shelf spacing
- Energy-efficient EC fans
- Available in temperature performance M1

* please check Technical Datasheet for details

Night blind for extra energy savings

Multifunctional air return grille secures temperature stability and also acts as an area for pricing

Modern door design with dark grey frames

External bumper for increased cabinet protection

The physical separation between the air flow for the air curtain and back panel unifies the temperature across the cabinet and limits condensation on doors
Ultrafreshness

Type Code
Name of product line
Depth of bottom shelf 8 ~ 800 mm
Front height 3 ~ 300 mm
Cabinet design: NC - No Canopy
H - Humidification
Length of cabinet 3750 mm
C - Revision Index
Temperature range: 2°/3°/4°C
Cabinet height: L= 1220 mm

Benefits at a glance
- Prolonged freshness & attractive display
- Eye-catching presentation in daily market atmosphere
- Focus on cleanliness and hygiene

Standard features
- Professional ultrasonic humidification system (NCH version)
- Adjusted air-flow rate (NCH version)
- Cabinet design with recessed canopy
- Wide-open merchandising display with stepped shelves
- 30 mm shelf spacing
- A wide range of interior and exterior colors

Accessories
- Attractive accessories with an emphasis on cleanliness and hygiene
- Stainless steel trolleys
- Energy-efficient EC fans
- External lighting
- CO2 evaporator

Humidification
The ultrasonic humidifying system ensures maximum quality and freshness of produce.

Trolleys
Roll-in trolleys allow fast and easy stocking and cabinet maintenance.

Stylish merchandiser for fresh produce
E6 Program Features

**Benefits**
- Modern design concept
- Increased display area
- Flexibility in merchandising
- EN ISO 23953 classification
- Energy & Service efficiency
- Reduced lifecycle cost

**Temperature Equalizer System**
- The new multideck's temperature equalizer system reduces energy costs in the long term.
- In addition, all products down the bottom shelf are chilled more evenly and efficiently at higher evaporating temperature and achieve thus a more harmonious temperature distribution.

**Premium Canopy Power LED**
- Higher evaporating temperature
- Optimized air management
- Considerably lower shelf positioning possible

**Modern clean design**

**Transparent fan cover (not visible)**

**Improved lighting**

**Approx. 11% larger glass area**

**25 mm shelf spacing**

**Numbered shelving**

**Numbered uprights in steps of five ensure fast and flexible shelf positioning.**

**Insulated all-glass doors (standard or transparent)**

**Cabinets fulfill temperature class M0, M1 or M2 according to EN ISO 23953**

**Multidecks & Semi-Verticals**
Glass Door Program E6 Multidecks

Unique Carrier technology prevents condensation forming on glass doors and still offers excellent product visibility.

All-glass doors with transparent frame
- Transparent mullion
- Optional shelf lighting

All-glass door with slim light grey (Cirrus grey) frame
- Vertical lighting

Available for MenEco

- Optimized arrangement of merchandise
- Low energy consumption
- Improved daily operation
- Glass lids available**

---

**Standard features**
- Ergonomic height
- Extra-large glass panels for best visibility
- A wide range of interior and exterior colors
- Enhanced energy-saving design **
- Energy-efficient EC fans **
- Push or sliding glass lids **

---

**Accessories**
- Superstructures for better footprint productivity
- LED handrail lighting
- Variable internal fittings
- CO₂ evaporator
- D2D defrost system
- Night blinds or covers for reduced energy consumption *
- Energy-efficient EC fans *

---

*I Open version
** Glass lid version
Benefits at a glance

- Flexible arrangement of merchandising displays
- Low energy consumption
- Improved daily operation

Standard features

- Two separate display compartments *
- Ergonomic height
- Extra-large glass panels for best visibility
- Enhanced energy-saving design
- Energy-efficient EC fans **
- Push or sliding glass lids **

Accessories

- Superstructures for better footprint productivity *
- LED handrail lighting
- CO2 evaporator
- D2D defrost system

New dark grey ergonomic handle

Flexible set up solutions for every store layout

* Preferred widths for Ivando crown ends, e.g. to build around columns.
AIB Modular Line 2018

Benefits at a glance
- Flexible arrangement of merchandise
- Reliability and performance

Standard features
- Modern and trendy design
- Ergonomic height
- Large glass panels for best visibility
- A wide range of interior and exterior colors

Accessories
- Superstructures for better footprint productivity *
- Night covers for reduced energy consumption
- Variable internal fittings
- CO₂ evaporator

* Not available for all cabinet types

** Store picture include non-factory part & features

AIB-S without middle wall
A long, open customer contact area presents the goods with a strong focus on sales promotion.

AIB-M with large glazing
Glazed panoramic side walls provide an outstandingly clear view of the product variety even from a great distance.

Standard handle for all glass lid options
Handle colour: Anthracite
Complete & Sustainable Refrigeration Solutions for Food Retailers

Project Planning
• Display cabinets to maximize merchandising opportunities
• Energy and environmental impact consulting and analysis
• Optimal refrigeration technology solutions for each store type
• Complete project design and documentation

Lifecycle Care
• Preventative maintenance program
• 24/7 call center and service assistance
• Remote monitoring to ensure optimized performance
• System modernization for improved efficiency

Installation
• Approach tailored to unique customer requirements
• Experienced teams with standard work processes
• A focus on quality throughout the process
• Limited on-site time for minimal business disruption

Product Development & Manufacturing
• Next-generation display cabinets to help increase sales
• Advanced refrigeration technology and integrated systems
• Energy-efficient solutions for the system lifecycle
• Sustainable natural refrigerant technologies

Carrier Commercial Refrigeration is a leading supplier of high-efficiency turnkey refrigeration systems and services in the food retail industry.
